

**INCORPORATED VILLAGE OF UPPER BROOKVILLE
BUILDING DEPARTMENT**

DEMOLITION REQUIREMENTS

1. Construction materials and removal debris shall not be buried or left on site.
2. Carting receipts for proper disposal will be required prior to close out of demolition permit.
3. Submit a minimum of four (4) photographs of the removal process and sub-grade condition showing the removal of material prior to backfill.
4. All excavations, declivities and/or depressions on the site caused by the demolition process must be leveled by clean backfill as determined by the Village or professional engineer.
5. All sanitary and drywells systems may not be abandoned in place. They must be removed in there entirely and filled with clean backfill as determined by the Village or professional engineer.
6. No demolition of a principal dwelling may allow the existing fuel tanks to remain or be abandoned in place. These tanks must be removed in accordance with the Village's and County's removal requirements and filled with clean backfill as determined by the Village or professional engineer.

These requirements are in addition to the Demolition filing instructions.
